ABOUT ME

Software Engineering graduate with experience in front-end and full-stack development. With strong teamwork skills and a high ability to adapt to the evolving needs of projects.

PROFESSIONAL EXPERIENCE

Freelance - Front End Developer

SKY TECNOLOGIA | 04/2025 - Present

External collaborator providing support in the development of various company products, primarily front-end development.

- **Product for Hospital Management.**
  - Developed the front end of the user module and connected it with the already developed back end.
  - Developed the front end and back end of the administration module, having to perform CRUD operations for several entities.
  - Technologies used: Typescript, Next.js 14, Tailwind and Python 3
- **Product for Inventory Management.**
  - Adapted a web application for correct visualization on mobile devices.
  - Technologies used: HTML - Jinja, Bootstrap and JavaScript.

Software Engineer

NTT DATA | 04/2023 - 04/2025

I started as an intern and worked my way up to the position of engineer in a data migration project. I was responsible for data quality analysis, cleaning, and migration.

- Conducted the analysis of the source system data and developed a tool to easily transform the data for the target system.
- Wrote the necessary documentation and trained other developers in the use of the tool.
- Configured the target system to perform the migrations, as well as tested and significantly improved migration times.
- Technologies used: Temenos Accelerator, Python 3, pandas, Excel, and VBA.

EDUCATION

Bachelor's Degree in Software Engineering | 2019 - 2023

Complutense University of Madrid

SKILLS

- **Programming Languages:** JavaScript / TypeScript, Python, C#, C++ and Java.
- **Web Technologies:** HTLM, CSS, Bootstrap, Tailwind, React, Next.js, Astro and Node.js.
